

JURMALA & KEMERI NATIONAL PARK

Full day tour

9:00 Meeting in Hotel Lobby to drive to **Kemeri National Park**.

Hiking trail in the Great Kemeri Moor – the wooden walkway will take you into the realm of moss, small bog pines, dark lakes and the scent of peat and marsh Labrador tea. Looking carefully at the moss, one can notice the sundew, a carnivorous plant, and hear the voices of various birds above the head: wood sandpiper, white wagtail, tree pipit, and somewhere far away the call of cranes. Those who prefer shorter walks can stick to the short route (about 1.4 km), for those who opt for the long route (about 3.4 km), the biggest reward will be the viewing platform with a magnificent view to the moorlands.

Jurmala is the largest seaside resort on the Baltic coast. Practically, the whole area of Jurmala is a natural spa. The gentle, ionized sea air heals the respiratory tract and strengthens the immune system while the aroma of pine forests promotes heart health. Mud and sulfur baths are also offered here. The wooden architecture is also one of the characteristic features of Jurmala, especially the original houses with decorative turrets and glassed-in verandas. After the sightseeing tour you can take some time to enjoy the leisurely atmosphere on the pedestrian street and have a cup of coffee or go for a walk on the beach.

16:00 Drive back to the hotel

Price: 50 EUR

Notice: please wear comfortable shoes for walking in the nature
